PROFILE

I am a highly motivated and adaptable professional with a strong passion for Computer Science. I am passionate about exploring the world of technology and software development. With a strong foundation in my coursework and programming languages such as Java, Python and Swift. I am excited to leverage my passion for computer science and my commitment to continuous improvement as I seek internship opportunities to gain hands-on experience and contribute to the tech community.

PROJECTS

Redesigned TSU Scholarship Page

April 2024 — April 2024

-As part of a personal project, I redesigned the TSU scholarship page and improved efficiency and accessibility by 20% when applying for scholarships and grants.

-This project allowed me to gain more hands-on experience with HTML, CSS and JavaScript.

Code Hs Karel – Java

August 2023 — Present

- As part of a coursework project, I solved numerous coding problems and increase my efficiency by 20% when typing code.

- This project allowed me to gain hands-on experience with solving interactive coding problems, tracking my progress, and providing automated feedback on code submissions.

Ed Stem- Java and Python

August 2023 — Present

- As part of my coursework, I was able to shorten the time it took to write code by 20%

- This project allowed me to minimize the amount of code while maximizing its efficiency by using for loops, while loops and methods.

EXTRA-CURRICULAR ACTIVITIES

Association for Computing Machinery (ACM), Antioch

August 2023 — Present

- Member

- Actively participated in club meetings, staying updated on the latest developments in computer science.
- Participated in club activities in collaboration with fellow ACM members, fostering teamwork and technical skills.

National Society of Black Engineers (NSBE), Antioch

August 2023 — Present

- Member

- Actively participated in NSBE meetings, staying informed about STEM opportunities and industry trends.
